OCT 15 1992

TO ALL 3160 OPERATORS

Dear Operator:

Effective as of the October 1992 production month, the Form MMS-3160, Monthly Report of Operations, due December 15, 1992, will have a new fatal edit requiring a four digit gas plant number when gas is transferred to a gas plant for processing prior to the royalty determination point. The gas plant name is still required after the number (see attachment no. 1). Attachment no. 2 provides a key to help you identify the gas plant number and name by using the State code, the gas plant name, the operator number/name, and the location.

A new Form MMS-3160 (see attachment no. 3) can be used, or you may continue to use the old Form MMS-3160. The new Form MMS-3160 reflects two changes: 1) the "Plant Number/Name" (as described above), and 2) the "Authorizing Name" which may be typed or printed is now required.

If you should have any questions, please contact your Minerals Management Service representative at 800-548-3094, or if you can provide any updated information regarding the gas plant data we have on our database, contact Ms. Beth Ann Becker at 800-525-7922 or 303-231-3391.

Sincerely,

Michael A. Miller
Chief, Reporter Contact Branch
